Ideation Phase

Brainstorm & Idea Prioritization Template

Date	28 October 2026
Team ID	Ujjawal Rathod (Individual Capstone)
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization: Captures all candidate analytical concepts generated during project ideation and prioritizes them by feasibility and business impact.

Step 1: Brainstorm and Idea Listing

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Ujjawal Rathod	Union `ev_market_train.csv` (200k rows) and `ev_market_test.csv` (100k rows) into a 300,000-row dataset and build 9 interactive Tableau visualizations covering sales, range, battery tech, map, ratings, and heatmap.	Core Analytics & Visualization	**1**
2	Ujjawal Rathod	Implement a FIXED Level of Detail (LOD) calculated field for Top 10 Manufacturer Market Share so shares reflect all 200 manufacturers (~0.59% top share), and anchor V6/V8 axes at 0 to eliminate visual distortion.	Data Accuracy & Calculations	**1**
3	Ujjawal Rathod	Design 3 Persona Mini-Dashboards (Emily - Strategy, David - Competition, Dr. Sarah - Research) and assemble a 4-point interactive Tableau Story with data-backed insights.	Executive Data Storytelling	**2**
4	Ujjawal Rathod	Develop a Python Flask web application (`app.py` + responsive HTML/CSS) embedding the live Tableau Public Dashboard and Story via iframes, and deploy publicly on Vercel.	Web Integration & Deployment	**3**
5	Ujjawal Rathod	Train an external Machine Learning regression pipeline to impute missing 3-year resale values and predict battery cycle degradation.	Predictive Modeling (Out of Scope)	**4**

Step 2: Idea Prioritization

Group No.	Final Idea	Feasibility	Importance	Priority	Selected
1	**Unified 300k-Row Interactive Tableau Dashboard** (9 Visuals + FIXED LOD Market Share + Global Filters & Click-to-Filter Actions)	High	High	1 (Highest)	**Yes**
2	**4-Point Persona-Driven Tableau Story** (Market Overview + Emily Strategy, David Competitive, and Dr. Sarah Research Views)	High	High	2 (High)	**Yes**
3	**Flask Web Application Integration** Embedded with Live Tableau Public Views & Deployed on Vercel	High	Medium	3 (Medium)	**Yes**
4	External Machine Learning Price & Battery Degradation Prediction Model	Medium	Low	4 (Low)	**No**
